

VOTERS URGED TO
REGISTER ON OCT. 7

Over 1,500 Voters In This County
Failed To Comply With Law At
Previous Sessions.

MUST REGISTER TO GET VOTE

In Case of Removal Voter Must Ob-
tain Certificate From Auditor
Before October 4th.

Monday, October 7, is the last registration day. This has an important meaning for every voter in Jackson county who has not registered at one of the previous sessions of the registration board, and unless such voter does register on Monday, October 7, he will not be entitled to cast his vote at the November election. There are in Jackson county more than 1,500 voters who have not yet registered. Some of these waited until the last day because they were expecting to move their places of residence, but the majority of them have neglected to comply with the requirements of the registration law. The law also provides that if any voter has moved from one precinct to another since he registered, he is required to get a removal certificate from the county auditor. This certificate must be obtained before Friday, October 4. It is necessary to have this certificate before such voter can vote in his new precinct.

It is important that all voters who have not registered do so on October 7. The board may be in session on the 8th and 9th, but such continued sessions are only held over upon the petition of a certain number of voters provided that petition is filed before the board adjourns. The voters of Jackson county have no assurance that the board will remain open more than one day on October 7th. It is therefore necessary and of great importance that the registration be made on October 7th. It will not be safe to run the risk of registering at one of the continued sessions for the board may not hold over longer than one day.

There are some quirks and twists in the registration law, and there are some openings for confusion and injustices. The wise voter will see to it that he is not in any way tricked out of his right to register and his right to vote. One way to make sure is to register without fail Monday, October 7. To be on the safe side it is up to the wise voter to register that day and have it done. If the careless elector waits for a second or a third day of opportunity to register at the October period he is liable to be sadly fooled.

The wise voter will keep in his mind the fact that there is a "joker" in the Tuggart machine's registration law. That "joker" has the effect of putting absolutely in the power of the registration inspector in the precinct to hold open the registration place for extra days, or to refuse so to hold open. It is true the law says five voters in a precinct, by petition in writing, may ask that the registration place be kept open one or two additional days after October 7.

Here is what the law actually says: "The board of registration... shall remain in session, if necessary to ac-

commodate the voters, during like hours (from 5 a. m. to 6 p. m.) of the next one or two succeeding days, when so requested in writing by five voters of the precinct."

"If necessary to accommodate the voters," is the killing phrase, and the wise voter will remember this phrase in the law, and govern himself shrewdly so as to prevent any use of this phrase against him in his precinct. The presence of this mysterious qualifying phrase serves to put the wise voter on his guard against delay. It means he must register October 7, if he has not already done so, and that he should not wait to register Oct. 8 or Oct. 9.

There is a strong probability, if the negligent voter puts off registration expecting to attend to that duty the second or third day of the October registration period, he will go to register and find the registration place in his precinct is closed and his chance to vote this year gone. Beware the little "joker." It is safest to regard that "joker" as being inserted for a purpose. It is the part of safety to register October 7 and give the politicians no chance to get in their work.

SERVICES WELL ATTENDED.

Mission Festival Was One of Most
Successful Ever Held.

The annual Mission Festival at the German Lutheran church Sunday, was one of the most successful ever held by the local congregation. Three services were conducted during the day and all of them were largely attended. Collections were taken up at each of the meetings for the mission work of that church and a total of \$925 in cash was contributed.

The Rev. Mr. Meinzen, of Indianapolis delivered the sermon in the morning. His address was very good and was greatly appreciated by the large audience. In the afternoon a sermon was delivered by Rev. Geo. Seebald, pastor of the Waymansville Lutheran church. "Missions were the theme of his address which was unusually strong.

There was a crowded house at the evening service to hear the address of Prof. Bakke, of the Missouri Synod, director of the German Lutheran Mission in the South. He has had over twenty years experience in this work and told in a very interesting way of the results which have been accomplished and also of the needs necessary to further the work. He showed that the negroes were being elevated to a higher moral plane through Christianization and that the conditions were much better than they were several years ago when less attention was given to the negro problem.

Miss Alma Webber Dead.

Miss Alma Webber, daughter of Fred Webber, 707 West Brown, died Saturday evening at the Schneck hospital, where she has been for two weeks for treatment for rheumatism. She was 20 years of age and a member of the German Lutheran church. The funeral services will be held from the residence Tuesday afternoon at 2 o'clock, conducted by Rev. E. H. Eggers. Burial at Lutheran cemetery.

SOCIAL EVENTS.

REUNION AND OUTING.

The Pfaffenberger and Everhart families held a reunion and outing at Fairview Cabin on White river today. The occasion was also the birthday anniversary of Mrs. Orville Everhart. At the noon hour a big fish dinner was served to a large number of the members of the two families. Several of the party will remain at the cabin for a few days' outing.

Among those who attended the reunion were: Mr. and Mrs. Sam Hodapp, John Pfaffenberger and family, Martin Hodapp and family, Henry Hodapp and family, Mr. and Mrs. Orville Everhart, Mr. and Mrs. Walter Everhart, Mr. and Mrs. John Lockmund, Mr. and Mrs. Scott Everhart, Mr. and Mrs. John Hodapp of Leavenworth, Kan., Mr. and Mrs. William Hodapp, of Cortland, and Fred Pfaffenberger, of Indianapolis.

ROEMMEL-WAYMAN.

Saturday evening at 8:30 o'clock, Miss Opal Wayman of Medora, and Mr. Frank Roemmel of this city, were quietly married by the Rev. F. M. Huckleberry at his home. The groom is the son of Mr. and Mrs. Chas. Roemmel.

The bride is the daughter of Mr. and Mrs. G. W. Wayman of Medora, but for the past two years she has been living with her aunt and uncle, Dr. and Mrs. H. L. True, of McConelsville, Ohio. They left at midnight Saturday for a short wedding trip and will be at home with the groom's parents on south Vine street until their home is furnished. They have the best wishes of a host of friends.

BIRTHDAY SURPRISE.

Jacob Schultheis was given a pleasant surprise Sunday at his home, 143 South Vine street, it being his seventy-first birthday. At noon a splendid dinner, prepared by his children, was served to about twenty guests. Mr. Schultheis received as a reminder of the pleasant occasion, an umbrella cane, so arranged that it is used ordinarily as a cane, but on occasion when needed an umbrella is drawn from the interior. In the evening about twenty-five of his friends and comrades came in to extend congratulations and a most enjoyable evening was spent by all. The out-of-town guests were his two sons, Gus and Peter Schultheis, of Indianapolis, and his brother, August Schultheis and wife of Vincennes.

SIX O'CLOCK DINNER.

Mrs. John Pfaffenberger entertained a company of relatives at a six o'clock dinner Sunday evening. Covers were laid for Mr. and Mrs. Fred Thias, Mr. and Mrs. John Hodapp, of Leavenworth, Kan., Mr. and Mrs. Orville Everhart, of Springfield, O., Mrs. Viola Robertson of Browns-town, and Fred Pfaffenberger of Indianapolis.

SIX O'CLOCK DINNER.

Mrs. James Honan entertained with a six o'clock dinner Sunday evening in honor of Mrs. George Craig and Miss Tillie Bloner. Mrs. Craig will leave soon for her future home in Louisville and Miss Bloner will leave for her home in Redlands, Cal. Miss Lizzie McGovern was the out-of-town guest.

CHILDREN'S PARTY.

Miss Mary Louise White entertained a number of her friends Saturday evening at her home on West Fourth street, in honor of her sixth birthday anniversary.

TAX LEVY MUST BE
SETTLED TONIGHT

Ordinance Is Placed Upon Second
Reading At a Special Meeting
Saturday Night.

REDUCTION OF 4 CENTS MADE

Question Must Be Determined At
Meeting Tonight or Present Levy
Will Be In Force.

When the ordinance fixing the tax levy for 1913 was taken up on second reading at the special council meeting Saturday night, amendments were offered changing the levy for several of the departments which reduced the total levy from \$1.40, as first proposed, to \$1.36. The levy for the present year is \$1.16.

The special meeting was called for the purpose of placing the ordinance on second reading, as two unsuccessful attempts were made to suspend the rules and place the ordinance upon second reading at the same meeting. Most of the discussion was centered upon the levy for the general fund. This was first placed at \$1.25, but by an amendment offered by Davison it was reduced to \$1.20. All of the councilmen were in favor of this amendment with the exception of Base, who is firmly holding out for a levy of \$1.16. Some of the councilmen were of the opinion that a levy of \$1.25 for general purposes was much too high and figures were given at the meeting Saturday to show that it would be practically impossible to pay off much of the indebtedness if the levy was reduced to any extent. The majority of the council is still in favor of making temporary loans to pay the indebtedness for the street improvements, and if this course is adopted some means must be made to increase the general fund for the payments must be made out of that fund. The councilmen believe that if the ordinance as amended is passed, the indebtedness can be reduced and probably cleared away during the coming year provided the general expenditures are guarded.

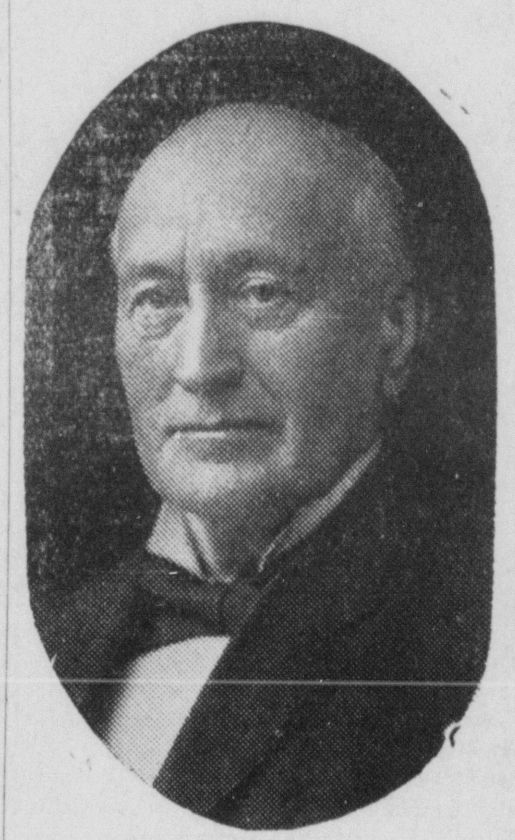

The sinking fund was kept at ten cents, as this amount would be necessary in order to pay off the bonds and interest which will be due during the coming year. The library fund was left at four cents, and the hospital fund was increased from one cent to two cents which is the same as this year.

The library fund is still attracting considerable attention, and it is understood that the board has taken up the matter with the county auditor and he has stated that he will follow the advice of the county attorney regarding the matter. If the county attorney declares that the library board has the right to fix the levy for library purposes, the additional two cents will be added by the auditor.

Another special meeting of the council will be held this evening when the amended ordinance will likely be placed on third reading. Under the law, the tax levy for the coming year must be settled during the month of September. As this is the last chance to determine the question, the old levy which is in force at the present time will be effective for 1913 unless some action is taken tonight.

Dr. P. F. Bressee.

We are glad to announce to the public that Dr. Bressee, of Los Angeles, Cal., General Superintendent of the church of the Nazarene will preach at the Nazarene church tonight. The general superintendent in the church of the Nazarene is the same as Bishop in the Methodist church. Dr. Bressee was formerly a Methodist preacher, and presiding elder, but near the close of the nineteenth century a movement for the spread and conservation of scriptural holiness corresponding somewhat to that historically known as the Wesleyan revival of the previous century, developed almost simultaneously in various parts of the United States, everywhere with a spontaneous drawing in the unity of the Spirit towards closer affiliation of those of like precious faith, and finally culminating in the organization of the

DR. P. F. BRESSEE.

Pentecostal church of the Nazarene. The spread and growth of this church has been marvelous. The great impulse of this movement has been the emphasis placed by the scriptures upon the fact that in the atonement Jesus Christ has made provision not only to save men from their sins, but also perfect them in love.

We have a number to be baptised, this will take place at the beginning of the service. The year is closing victoriously with us, over a hundred and twenty-five seekers have been at the altar the past year. Thirty-four have united with the church. Don't miss hearing this old veteran, one night only. Services at 7:30 p. m. M. T. Brandyberry, pastor.

LONG AUTO TOUR.

Motorists Dinner Here on Trip From
Detroit to New Orleans.

J. S. Kinnan, of Pasadena, Cal., was here Saturday afternoon making arrangements for the automobile tour from Detroit to New Orleans. The motorists will leave Detroit Monday, October 7th, or one week later. The tour is given under the auspices of the American Automobile Association.

The route will be designated by signs which will be placed in position by the "pathfinder." The run from Indianapolis to Louisville will be made in one day and if the start is made on October 7, the motorists will arrive here on the 9th. Arrangements have been made for the members of the party to take dinner here. About seventy-five automobiles will take part in the run.

William H. Murray, Sr., is quite ill at his home in Redding township.

Mrs. Minerva Glasson, of Redding township, was taken seriously ill Saturday.

The Redding township Sunday School convention was held Saturday at Ebenezer's church. A number from this city attended.

Mrs. Harley Jackson was called Springville Sunday on account of the serious illness of her mother. M. Jackson went this morning in response to a telegram.

Mrs. Elizabeth Carr went to the Odd Fellows Home at Greensburg this morning to make final arrangements to enter the home in the near future. She was accompanied on the trip by Mrs. Lou Jones.

Fred Landis, candidate for lieutenant governor on the progressive ticket, will speak at the Majestic Wednesday night. The progressives expect a good meeting and are making arrangements for the entertainment of the speaker.

Elder William Chapple of Columbus, preached at the Christian church Sunday morning. He represented the State Board and was here to raise money for state mission work. M. T. Reeves of Columbus, has pledged \$5000 for this work provided Mr. Chapple can raise that amount this year.

Mrs. John Murphy and daughter, of Mitchell, passed through here this morning enroute to New York City to see an aunt of Mrs. Murphy's who has been in a Catholic Convent there for sixty-five years.

Mrs. Murphy is an aunt of Mrs. George H. Moore of this city.

C. H. Hancock, of Tulsa, Okla., is visiting friends and relatives here. Mr. Hancock lived in Seymour for many years and has a large acquaintance here. Since he moved to the West he has been very successful in business and is interested in a number of different enterprises.

A number of automobilists in the city are taking advantage of the favorable fall weather for cross country trips, and several machines loaded with passengers started out this morning. Tourists realize that if there is an early winter a few more weeks will bring pleasure riding to a close and are endeavoring to "make the time count" from this time.

While walking along the C. T. H. & S-E. tracks near Fourth street, this morning, Robert Clark fell and struck his face on a rail. It was cut in several places and was badly bruised by the cinders. A message was sent to police station and Chief of Police Abell after making an investigation, took the man home. It was first reported that he had been struck by a train, but this rumor was without foundation.

An automobile party composed of ten members of the local I. O. O. F. lodge drove to Greensburg Sunday and visited the I. O. O. F. home at that place. They had a pleasant trip and enjoyed the outing. The trip was made in the automobiles of C. E. Abel and John Roeger. The other members of the party were George S. Clark, Henry Bretthauer, Chas. Roeger, Stanley Switzer, Harry McDonald, Lafe Heiman, Amazona Montgomery and Carl Switzer.

REBELS SURROUND CITY OF MEXICO

Situation at Capital Daily Growing More Serious.

INTERVENTION NOT UNLIKELY

Washington Hears With Some Surprise That the Sub-Committee of the Senate Which Has Been Investigating the Relations of American Citizens to the Mexican Revolution, Favors Uncle Sam Taking a Hand.

Washington, Sept. 30.—According to dispatches received here, rebels are threatening to sack the Hearst estates at Tlalcohuacan, in the state of Guanajuato, Mexico. Consul Letcher has been informed and has already made a request to the Mexican government to send troops there at once. He reports that assurances of protection to the Hearst property has been given him.

No change in the situation is apparent in any of the dispatches received here. The southern situation is now the most serious, owing to the two revolutions now in progress in the region surrounding Mexico City. Zapata is still at work of robbing and looting, and the former federal general, Aguilar, has got a formidable revolt under way in the state of Vera Cruz. Orozco is inactive in the north, but it is feared he may become a serious menace again at any time.

Committee Favors Intervention.

Much interest is attached here to the reports from Los Angeles regarding the report of the senate sub-committee which investigated the relations of the United States and American citizens to the Madero and Orozco revolutions just south of the border. Reports that Senator Smith, who has been one of the active members of the sub-committee, favors intervention, created great surprise in Washington. The Michigan senator, though a Republican, has been one of the most obstinate opponents of the administration's policy in Latin America. From his opposition to the action taken by the United States in the Dominican republic and the general policy toward Latin American states, it has been supposed that he would be the last to support any program of intervention in Mexico. If his attitude is correctly reported from Los Angeles, he will be in opposition to the administration, for though it is known that the president regards intervention as nearer than ever before, it is equally understood here that not only Mr. Taft, but all the officers of the government are really opposed to intervention. Reports that intervention had been decided upon by the president are universally denounced in official circles. Only the force of circumstances can ever bring a decision to intervene in Mexico. It is stated, and then the administration will content itself with reluctantly recommending such a step to congress.

TEDDY'S TRAVELS

The Colonel Closing Up His 10,000-Mile Swing Around the Country.

Chattanooga, Tenn., Sept. 30.—Colonel Roosevelt, who arrived here from Atlanta last night, will finish on Wednesday next his swing around the country. When he arrives in New York he will have completed a tour of 10,000 miles and will have made his appeal for progressive support to the people of twenty-seven states.

During the month of October he will speak in the middle west, including Illinois, Michigan, Indiana and Ohio, address a few crowds in Pennsylvania and make short dashes into New England. The last five days of the campaign he will devote to New York.

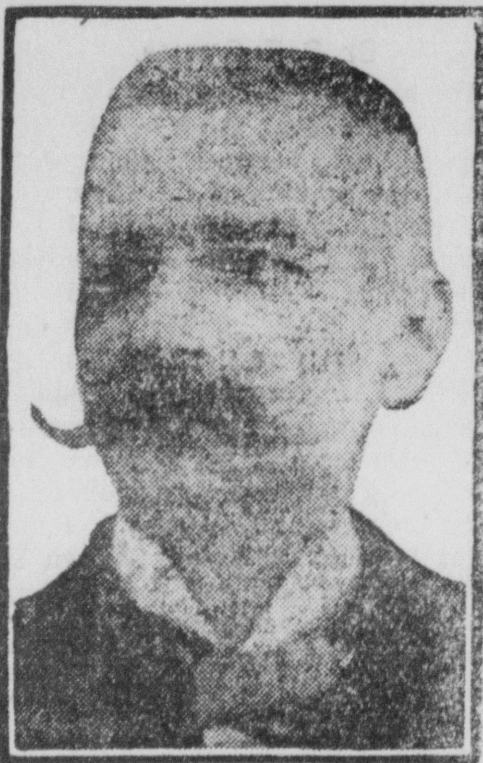

The colonel will not permit himself to rest more than a day or two at Oyster Bay. He must appear before the Clapp senatorial investigating committee on Oct. 4, and immediately thereafter resume his stumping. His itinerary today includes numerous stops in Tennessee and North Carolina.

Governor Wilson's Travels.

Sea Girt, N. J., Sept. 30.—Governor Wilson went to Atlantic City today to speak before the American Road congress. Tomorrow he will attend the Democratic state convention in Trenton. He will leave New York Wednesday night for his trip to the west. The members of his family are to leave the "Little White House" tomorrow and will return to Princeton.

FOUR BODIES FOUND IN RUINS OF HOME

Evidence of Murder In Illinois Farm House.

Quincy, Ill., Sept. 30.—Between 2 and 3 o'clock Sunday morning, neighbors discovered a fire in the farm residence of Charles Pfanschmidt, twelve miles south of this city.

In the ruins of the building they later discovered the bodies of Mr. and Mrs. Pfanschmidt, each about forty-eight, their daughter Blanche, aged fifteen, and Miss Emma Kaempfen of Quincy, a school teacher, aged nineteen, who boarded with the family.

Indications point to murder and the burning of the dwelling to conceal the crime.

Ray C. Pfanschmidt, a son, the only survivor of the Pfanschmidt family, was away from home on business.

Examination of the bodies showed that the teacher's head had been almost severed. Fresh blood tracks were found near the house.

CHINESE FINANCES

Director of Loan Negotiations Calls on Provinces to Respond.

Pekin, Sept. 30.—Hsiung Hsi Ling, the former minister of finance, whom President Yuan Shih Kai appointed to conduct the loan negotiations, has issued a statement to all provincial officers and the Chinese press, in which he declares that China will surely be able to discharge all her obligations. The successful London loan of \$50,000,000 will furnish only sufficient funds for the requirements of the immediate future. Another obligation of \$19,000,000 must be met this year. If the provinces are unable to send contributions to cover this, the statement says, the powers may at last have a pretext for complaint. It is therefore incumbent on everyone, he says, to make sufficient provision to put the republic upon a secure basis.

Railway Deaths Increase.

Railroad accidents and the resulting casualties were on the increase in the three months which ended March 31 last. The quarterly accident bulletin issued by the Interstate commerce commission shows 2,383 persons were killed and 20,499 were injured. In train accidents 267 persons were killed and 4,785 were injured, an increase of 121 killed and 1,555 injured, as compared with the corresponding quarter of 1911. Of the 2,383 fatalities, 1,116 were suffered by trespassers, persons using railroad tracks as thoroughfares or those stealing rides on trains.

SOCIALISTS RATIFY CANDIDATES' CHOICE

Monster Meeting Greet Debs and Seidel.

New York, Sept. 30.—Testifying to their enthusiastic Socialism in one blare of red, more than 20,000 men and women saw and heard, or tried to hear, Eugene V. Debs, Emil Seidel and others of their standard bearers at the Madison Square Garden Sunday afternoon. The police cried enough when 11,000 crowded into the old garden. Old policemen declared that there had not been another such a crowd since William J. Bryan made his first visit in 1896. Debs himself summed up the day when he said: "What I see here today is far more important than anything I shall say." He managed to make that remark after he had been cheered off and on for about twenty-seven minutes.

Other Nominees Criticised.

The meeting, or meetings, were notable, among other things, for the unanimity with which every speaker went after Theodore Roosevelt. Of course President Taft and Governor Wilson were not overlooked, but for the colonel every man had a few words in which he was accused of about every political crime.

Emil Seidel, the once Socialist mayor of Milwaukee, said that Mr. Roosevelt and his party had stolen bodily twenty-one planks of the Socialist party, not having the intelligence to write his own platform planks.

The meeting was to ratify the selection of Debs for the presidency, Seidel for vice president, and all the other nominees for every other office, state and national.

Marriage License Did Not Save This Little Girl From Books.

Philadelphia, Sept. 30.—John Palasis of Logan street must send his thirteen-year-old wife to school for another year, according to Magistrate Boyle, or he will have to go to jail. The girl was reported by the truant officer and her father was arrested for the violation of the school attendance act.

The smiling little helpmeet waved a marriage certificate before the astonished magistrate and said:

"I no go to school. I stay home and make beds and get husband's meals." Magistrate Boyle concluded matters by fining the father \$14 and costs and told the husband that if he did not send her to school until she was fifteen years of age, he would be arrested and fined also.

Resort Murder Is Mystery.

Evansville, Ind., Sept. 30.—With a handkerchief stuffed down her throat and scratches on her neck, indicating that she had been strangled, a woman answering the name of Jessie was found dead in bed in a resort early Sunday. The police are looking for a strange man who visited her Saturday night and disappeared before daylight. Nothing is known about the woman, beyond the fact that she came to Evansville two weeks ago. She was about twenty years old.

He Lost His Footing.

Lexington, Ky., Sept. 30.—In view of a crowd of thousands of people at High Bridge Sunday, Buck Powell of Wilmore fell a distance of 200 feet from the north bank of the Kentucky river and was crushed to death on the jagged rocks near the river's edge. Powell, with some friends, had gone to the bridge as members of a picnic party and was climbing along the cliff when he lost his footing.

The 1912 Jackson County Directory

Including the Incorporated City and Towns of
SEYMOUR, BROWNSTOWN and CROTHERSVILLE
AND EVERY TOWNSHIP IN JACKSON COUNTY

This is the first complete Directory ever issued for all of Jackson county including the city of Seymour, the incorporated towns of Brownstown and Crothersville, and every township in the county.

The Directory was compiled under the direction of the Seymour Republican by canvassers who made a house to house visit of every home in the county, securing at first hand the names and information.

The Directory contains 368 pages and is substantially bound in cloth.

The Directory gives the occupation and the postoffice address of every person in Jackson county.

The Directory indicates all real estate owners by a star after the name, and in the township lists it gives the number of acres owned by every farmer in the county.

The Directory lists a man and his wife in the same line so that family relationships are easily seen.

The Directory is completely indexed on Page 2, and explanatory notes indicate all the details used in compiling it.

The Directory will be useful to you in a score of different ways through the vast amount of detailed information which it gives.

The Directory will furnish you information about the citizens of the county, and will aid you in making up any kind of a list of names and in securing addresses for use in connection with your business.

WHO PAYS THE BILLS?

Do Advertised Goods Cost Consumer More Than Non-Advertised Goods?

By W. D. SHOWALTER.

A rather droll phase of the development of newspaper advertising in America has been the perpetual discussion as to "Who pays for the advertising?"

For to advertise a store adequately in newspapers of large circulation does cost rather large sums of money. The non-advertising shopkeeper seeks to convince his friends that he can sell more cheaply because he does not have to pay for advertising—and, to the thoughtless, his argument seems sound.

Of course if it were sound there would be no such thing as newspaper advertising on any large scale—perhaps the whole system would fall, and there would be no more advertising at all.

Primarily, your shopkeeper advertises that he may sell more goods—not that he may receive higher prices for them.

A Convincing Illustration.

Take, in illustration, two tailors, of Nassau street, New York. Their rent expenses are alike. Tailor Jones spends \$100 a week for newspaper advertising. Tailor Smith spends nothing. His fixed expenses are, therefore \$100 a week less than those of his competitor, Tailor Jones. Does that money go to his customers? Let us see.

His total "fixed expenses"—the cost of rent, light, heat, telephone, services, etc., amount to \$300 per week. He must make a profit of that amount each week, or lose money. If he makes and sells 30 suits in a week he must make a profit on each suit, above the cost of materials, etc., of \$10 in order to make expenses. We will assume that his output is a little more than that number of suits weekly, but that he does aim to make an average profit of \$10 per suit.

Tailor Jones, who advertises, must add \$100 per week to his fixed expenses—making \$400 he must earn as profits, above manufacturing costs, each week, in order to make expenses.

His advertising expenditure, however, enables him to figure on making a hundred suits each week. Thus, if he figures an average profit of \$5 per suit above manufacturing costs, he will have paid expenses—including his advertising appropriation—and will have a personal net profit of \$100 each week.

Consumer Saves Money.

In the "working out" of the matter, therefore, the man who buys a suit of Smith, who does not advertise, pays him a profit of \$10. The man who buys a suit of Jones, who does advertise, pays him a profit of \$5.

It is difficult to figure out just how the buyer has paid Jones' advertising bill—for he has saved \$5 over what his suit would have cost if bought of the tailor who does not advertise.

The whole problem rests upon the volume of business done—the number of sales made with practically the same fixed expenses. The advertiser, with a larger volume of business, can accept a smaller per-sale profit.

NEWSPAPERS ARE THE BEST

Strongest Advertising Medium, Declares Coal Merchant—Make "Copy" Attractive.

Newspaper advertising received another indorsement the other day when C. Frank Williams, delegate to the Pennsylvania Retail Coal Merchants' association, in session at Reading, declared that when all other methods of publicity had failed he came back to the newspapers. He said in part:

"Advertising depends on localities. I have tried various ways of advertising to bring my business before the public, but in the end I have always gone back to the newspapers. I tried circulars, personal solicitation and post card methods, but none was as successful as the newspaper. Change your 'ad.' from time to time and people will read it, especially if it is an attractive 'ad.' A whole lot depends on the 'ad.' I believe in that remark made by John Wanamaker several years ago, when he said that by advertising in newspapers a man received five times as much for his money as he could in any other way."

Native Advertising in China.

Tradesmen in China have quite as high appreciation of the value of advertising as any other people in the world. In China the biscuits bear the imprint of the baker, and ducks bought in the Celestial markets frequently show on their backs a big red stamp bearing the name of the seller. Chinese shops have large signboards which show an odd mixture of the poetic and the commercial traits of the people. Here are a few examples: "Shop of Heaven-sent Luck," "Tea Shop of Celestial Principles," "The Nine Felicities Prolonged," "Mutton Chop of Morning Twilight," "The Ten Virtues All Complete," "Flowers Rise to the Milky Way."

A charcoal shop in Canton calls itself the "Fountain of Beauty," and a place for the sale of coal indulges in the title of "Heavenly Embroidery."

An oil and wine establishment is the "Neighborhood of Chief Beauty," and "The Honest Pen Shop of Li" implies that some pen shops are not honest.

RECALL FOR PRESIDENTS.

(St. Louis Globe-Democrat.)

Col. Roosevelt's latest fad, a call for presidents, would have perpetrated some strange pranks had it been in operation in the past. It would have put Grant out of office in 1874, would have prevented the enactment of the law for the resumption of specie payments which was passed in the short session of Congress which began a month after the Democratic triumph in that year, and would have brought greenbackism and irredeemable currency. Had there been a recall in operation in 1878 Hayes would have been put out of office, and the limited silver coinage bill which he vetoed in that year, but which was passed over that barrier, would have been replaced by unlimited silver on the plan urged by Mr. Bland, and afterward pressed by Mr. Bryan.

Here are two out of several instances in the past half century in which the recall for presidents would have brought disaster to the country. What would have taken place if any such scheme had been in effect in 1862? In the elections in November of that year the Democrats carried many states which Lincoln won in 1860, the Republicans lost many seats in the House of Representatives, and there was a lurch toward copperheadism which aroused fear in Washington and gave encouragement to the enemies of the government. The Republicans did, indeed, retain control of each branch of Congress, but by a diminished majority. It was a setback, nevertheless, for the national administration. The Richmond and Charleston newspapers were quick to grasp its significance. Coming as it did not long after McClellan's reverse on the peninsula. Pope's disastrous defeat in his movement on Richmond by way of the Rappahannock, and the failure of McClellan to rise to his opportunity and crush Lee in the Maryland campaign, the great Democratic gain in the election of 1862 led the leading Confederates to believe that Lincoln had lost the confidence of the loyal people. There was as much rejoicing in the Confederacy at this display of Democratic strength in the election in November of that year as there was at Lee's victory over Burnside a few weeks later at Fredericksburg.

Try to imagine the catastrophe which would have befallen the country had his recall folly been in operation in the crisis of fifty years ago. The Confederate cause would have been triumphant. Two nations, and possibly more than two, would be here

now instead of the one big power which we see, and a line of forty would be planted on each side of the southern border of the free states. Each section would be compelled to maintain a large standing army and a big navy. The Maximilian usurpation in Mexico would have continued, the Monroe doctrine would have been assailed in many other places also, and the republican experiment in the United States, which has revolutionized many other countries since then, would have failed.

It is important that every voter who has not yet registered, do so on next Monday, October 7. The law requires that each voter register and this is the last opportunity. Unless the requirements of the law are complied with a voter cannot cast his ballot in November. It is his duty which is required and it makes no difference whether you favor the measure or not, the requirements must be met before you can vote. The registry law has been given much publicity, yet there are many voters in Jackson county who do not seem to realize the importance of registering. Some have purposely waited until the last day while others have simply neglected to register. It is also important that voters who have registered at one of the previous sessions of the boards but have moved to another precinct secure a certificate from the county auditor to that effect before October 4. Doubtless many voters, in spite of the warnings which have been given, will fail to register and as a result will not be allowed to register. If you have not registered don't fail to do so Monday morning.

This Association is one of the substantial business concerns of our county. It has enabled hundreds of our people to own their own homes by easy payment and it has helped hundreds to save and invest in business or other enterprises. In his recent examination, the building and loan examiner of the State of Indiana found the Co-Operative to be one of the best managed associations in the state.

To become a stockholder you subscribe for as many shares as you wish to carry, the membership fee being 25c per share which is paid only once. The dues are 25c per week per share, thus encouraging the habit of saving regularly and placing these savings where they will earn dividends until they amount to \$100 per share. No premium is charged for loans and the money is loaned on first mortgage on real estate in Jackson county or on ninety per cent. of the value of the stockholder's pass book, so that there is the best security possible for the investments made by the stockholders.

Take some stock in the new series and begin the habit of regular saving. You will find your money accumulating faster than you think.

PERSONAL.

Fred Pfaffenberger came from Indianapolis Sunday to visit his parents.

Mrs. Elizabeth Gilbert went to New Liberty this morning to visit relatives for a week.

Wm. H. Noelker returned from Indianapolis Sunday evening after a short visit with friends.

Mrs. J. H. Robbins went to Brownstown this morning to spend the week with relatives.

Ralph Dodd of Medora was here this morning on his way to Indianapolis, where he has a position.

Rev. James White and family, of Washington, came this morning to visit Mr. and Mrs. Lafe Hieman.

Miss Carrie Crabb returned to Indianapolis this morning after attending the funeral of Thomas Cary.

Arthur Jerrell returned to Jeffersonville this morning after a visit here with relatives for several days. Mrs. Mary Werning returned home this morning from Four Corners, where she has been visiting her brother.

Fred Plump came from Indianapolis Sunday to spend a few days with his parents, Mr. and Mrs. Fred Plump, Sr.

Miss Gladys Kutchback returned to her home in North Vernon today after attending the funeral of Thomas Cary.

Mrs. August Elsnor and Mrs. Elizabeth Maschino, returned this morning from a visit at Saint Ann's near North Vernon.

Nicholas Vogel, of Brooklyn, Ia., who has been visiting relatives and friends, here for a week, returned home this morning.

Miss Leona Lail returned to her home in Greenwood Sunday evening, after a visit since Thursday with Miss Anna E. Carter.

Mrs. Mike Clahan and Mrs. Thomas Wright of Crawfordville, who have been visiting Mr. and Mrs. William Misch, returned to their home this morning.

Mr. and Mrs. John Disney went to Henryville Saturday evening to visit her father, John Montgomery. Mr. Disney returned Sunday night, but Mrs. Disney will remain a few days longer.

Miss Evelyn Hirtzel, one of the night operators for the Mutual Telephone Company, returned from Aurora this morning where she has been spending her vacation with her sister, Mrs. Harry French.

The democratic speaking Tuesday night will be held at the Majestic theater. It was first announced that the meeting would be held at the corner of Chestnut and Second streets but the change was made on account of the cool weather. The address will be delivered by Congressman Dockery, formerly governor of Missouri. This will be his only speech made in Indiana. As the meeting will be the opening of the democratic speaking campaign in Seymour the local democrats are working hard to have a good crowd present. The Seymour Military Band will furnish music for the meeting.

Further Trouble Is Feared.

Augusta, Ga., Sept. 30.—With mounted troops patrolling her streets and infantry pickets stationed at strategic points, Augusta passed a quiet Sunday, the first since the conductors and motormen of the street railway went on strike a week ago. The company has a lot of strike breakers here from New York, and it is generally believed rioting will begin when the strike breakers try to operate cars.

An Ulster Day Riot.

Belfast, Sept. 30.—Ulster day did not pass entirely bloodless. A report from Moy, Tyrone, says there was a fierce fight there after the celebrations. Revolvers were fired and bottles and stones thrown. Many persons were injured. The police, who were temporarily overpowered, withdrew to their barracks, but later made a charge with bayonets. The number of casualties is unknown.

Marchers Clash With Police.

Lawrence, Mass., Sept. 30.—Marching members of the Industrial Workers of the World clashed with the Lawrence police and during the melee two of the officers were stabbed slightly, and one was beaten almost unconscious with his own club; a revolver shot was fired at the police station and many of the paraders sustained cracked heads through encountering the policemen's billys.

Auto Ran Off Bridge.

Salina, Kan., Sept. 30.—Mrs. W. E. Pierce was killed, her husband, pastor of a Methodist church at Ada, probably fatally injured, and their three children seriously hurt when an automobile, with Mr. Pierce at the wheel, ran off a bridge on a country road.

Made Him Despondent.

Indianapolis, Sept. 30.—Percy J. Yagler committed suicide by taking gas in his room at the Yagler hotel, a dispirited man, having been the chief cause of his despondency.

PARCEL POST STAMPS.

Postmaster General Arranges for
Manufacturer of Three Series.

Arrangements have been made by Postmaster General Hitchcock for engraving and manufacture of a series of twelve stamps, unique in size and novel in design, for exclusive use in the forwarding of packages by the new parcels post. Under the law recently enacted by the Congress, ordinary stamps cannot be used for this purpose.

The special parcels post stamps will be larger than the ordinary stamps and will be so distinctive in color and design as to avert any possible confusion with stamps now in use.

The new issue will be in three series of designs. The first will illustrate modern methods of transporting mail, one stamp showing the mail car on a railway train; another an ocean mail steamship; a third an automobile now used in the postal service; and a fourth the dispatch of mail by aeroplane.

The second series will show at work in their several environments the four great classes of postal employees—postoffice clerks, railway mail clerks, city letter carriers and rural delivery carriers. The third series will represent for industrial scenes showing the principal sources of the products that probably will be transported extensively by the parcels post.

The stamps will be ready for distribution December 1, in order that the 60,000 postoffices may be supplied with them before the law becomes effective January 1.

THE foregoing extracts from the news and editorial columns of the newspapers have been selected almost at random and numerous as they are they represent but a fragment of the innumerable stories with which the papers of this happy country are filled day by day.

And they splendid stories. Can any American read them without a thrill of pride and satisfaction?

And when we stop to think of it, men and brethren, must we not realize that the concrete facts they present are of immeasurably more value and importance than all the theories, all the fine spun fads and fancies, that were ever invented. How trivial, how like sounding brass and tinkling cymbal, seems all the talk about "bosses" and "initiatives" and "referendums," about this or that petty "issue," in the presence of the splendid FACT that there is peace and plenty in all the land, that men are busy and women are happy and little children are fed and clothed!

All these things have come to us under the laws we now have, through the sanity and sense and wisdom of the great party that is now in power. Why jeopardize it all in a rash experiment? Why change for the mere sake of a change? Why take a chance when we already enjoy a certainty?

Why vote for ANYBODY but Taft and Sherman and the Republican Party?

PROSPERITY HERE SAYS RAIL CHIEF

President of the Pennsylvania
Sees Record Good Times
Ahead.

PROMISES ENOUGH CARS OTHERS ECHO SENTIMENT

Decoria He Will Provide Plenty of
Ships to Move Products.

From the Chicago Tribune, Sept. 16, 1912.
Pittsburg, Pa., Sept. 16.—(Special)—Prosperity that will eclipse anything the nation has ever enjoyed is what James McGee, president of the Pennsylvania railroad, sees in the future. McGee came a Pittsburgh last night, and what he thought of the business situation, he said:

"Prosperity—why it is here! Everybody can see that. The pulse of the whole country is beating to the rhythm of happier times. And we are just entering the new era of prosperity."

ALL SIGNS POINT TOWARD PROSPERITY

Tremendous Business in Sight Which
Should Not Be Checked.

From the Gary, Ind., Tribune, Sept. 11, 1912.

Orders on the books of the United States Steel corporation as of August 31 called for 6,165,375 tons of material. This figure represents an increase of 208,296 tons over the amount booked a month earlier. It is also the largest amount of business shown since the corporation began issuing monthly reports of its orders, and has not been exceeded in the quarterly statements since September 30, 1907. The largest amount of business the corporation ever reported was 8,489,719 tons on December 31, 1906. Since the beginning of this year the business on the order books has increased from 5,084,761 tons and during a large part of the period the mills have been running close to their productive capacity.

This means everything to Gary for the next year. If the steel companies cannot keep pace with their orders, with all their plants running at practically full capacity, the time is at hand when extensions will be in order, and Gary is going to get its share of the extensions.

Elsewhere in this issue, the Tribune prints a remarkably "boomish" series of interviews with New York bankers. They are worth reading.

It all goes to show that general business is going to be tremendous for at least a year to come, and Gary is in position to get its full share of the good things business times are to give out.

IOILA IRON WORKS RUSHED

HOPE TO INCREASE FORCE FROM
300 TO 400 MEN.

Treasurer Hornsby Says the Resumption
of Business Came Within
Three Months.

From the Toia, Kan., Register, Sept. 13, 1912.

"Business at all our plants is rushing and in a short time we hope to be operating at full capacity at our Toia mill, which will call for some 140 men," was the interesting statement made to a Register reporter by Mr. F. A. Hornsby of Springfield, Mo., treasurer of the United Iron Works company. Mr. Hornsby was on a visit to the Toia plant of the company and stated that he was adding to the force here as rapidly as possible, having now 100 men on the pay roll.

NO TALK OF HARD TIMES

Philadelphia Bankers Say That Business
Is Good Everywhere.

Philadelphia, Sept. 11.—Bankers here today expressed themselves as much encouraged by the prospects of almost a tidal wave of business and a trade prosperity that will endure owing to the prospects of bumper crops as forecast in the government crop report issued yesterday.

FORESEE AN ERA OF PROSPERITY

Julius Kruttschnitt and Otto
Kahn Tell of Increased Business Everywhere.

POLITICS INTRODUCES THE ONLY ELEMENT
OF UNCERTAINTY.

From the New York Sun, Sept. 11, 1912.

Prosperity for the United States and its insular possessions was predicted by many returning passengers on the Kronprinz Wilhelm of the North German Lloyd line. Among the most optimistic was Julius Kruttschnitt, vice-president of the Harriman railroad lines.

Mr. Kruttschnitt bases his rosy predictions on the reports he received through the newspapers and from the officials of the Harriman system. He thinks that the prosperity wave will extend throughout the country.

Among those who are confidently looking for good times is Otto Kahn of the firm of Kuhn, Loeb & Co., who sailed for Europe on the Mauretania this morning. In discussing business conditions throughout the country Mr. Kahn declared the big crops of this year indicated a revival of prosperity and increased business.

But Mr. Kahn was careful to point out that there was danger to business from politics and unsettling legislation. He said in part:

"When any one tells you, as many are saying, that the business revival is going on regardless of politics, you can laugh at him," he said. "It will not. It is true that the country is all ready for the great prosperity. The crops are wonderful, the greatest we have seen. Business is running smoothly. The factories are operating at full capacity, labor is well employed. The outlook is good. But business will not cut loose into any great boom. "Politics is one big factor. Wilson is an uncertainty. He has been giving us a great deal of loose talk lately on one thing, concerning the inability of American business men and bankers to handle their business. Presidents cannot afford to indulge in loose talk."

IN MINES AND QUARRIES

Industries Which Have Greatly Prospered
Under President Taft.

From the Quincy, Ill., Whig.

The mining and quarrying industry is one of the greatest industries in the United States. During the administration of President Taft the miners have prospered, there have been fewer strikes than ever, and why should the miners vote for a change? The best is none too good for the working people of this country, and they have been getting the best during the past four years. Can they expect anything better under the administration of a Democratic president, when history teaches us that this would be an utter impossibility? Illinois has 86,389 persons engaged in the industry, a larger number than any other state in the east north central group, which consists of the states of Ohio, Indiana, Illinois, Michigan and Wisconsin. Do the voters of this great state want to continue to prosper, or do they prefer to go back to the old days when they worked for starvation wages? This is something for the thinking men of this country to ponder over. You cannot get away from the cold facts.

Prosperity Wave Increasing.
"The prosperity wave is increasing daily," says President Benjamin F. Bush, of the Missouri Pacific-Iron Mountain system. "I wish," he adds, "that the railroads were going to share equally in the profits with other lines of business, but the prevailing rates are low and operating expenses are great."

Mr. Bush's interview shows that the Interstate Commerce commission, under President Taft, is protecting the interests of the people and that wages were never higher than they are at present.

HARD RAILROAD WORK

DISPATCHERS IN EARLY DAYS
HAD TWELVE-HOUR "TRICKS."

Strain on Nervous System Was Found
Too Great, and Modern Arrangement Was Put In—How Evolution Has Gone On.

One of the first steps in the evolution of the modern railroad system was the division of twenty-four hours into three tricks. It was found that twelve hours was too great a strain on the nervous system. Most of the track was single. There were no blocks, and dispatchers faced throughout every working hour the fearful possibility of a fatal blunder.

So another man was employed and the working day for each dispatcher was cut down to eight hours. This is called a "trick." The first trick is that which begins at eight in the morning. It is called the first because it was the choice of the senior dispatcher. The second lasted from four o'clock until midnight, and the third from then until eight a. m.

For many years after this system went into effect the dispatcher was expected to balance locomotive power, attend to car distribution and discipline the operators along the division, in addition to his other and arduous employment of following the operation of trains. With the passing of the years and the attendant increase of traffic the defects of this arrangement began to obtrude prominently.

The necessity of attending to car distribution was calculated to draw the attention of the dispatcher from the very much more important task of keeping trains moving rapidly and safely. Especially hard was it for the second trick man, when, at four or five o'clock in the afternoon, the car reports were piled in.

The problem was solved by giving the first trick man more authority and more pay and entrusting him with the distribution of cars and examination of division operators after he had spent several hours at the telegraph key. Later he was relieved altogether of the regular work of the trick and became the chief dispatcher, as he is known today. In a typical office the dispatcher's force now consists of a chief, three trick men, two copy operators and several messengers.

The first development of train dispatching was the single order. When two trains were to meet by special direction the signal was first set against the superior train and the operator handed the conductor his order. As for instance:

"You will not pass Charlestown until train No. 4 arrives."

To the inferior train at the same time the following order was delivered:

"You will run to Charlestown regardless of No. 5."

As a safeguard it was a custom to add to the order the phrase:

"How do you understand?"

To which the operator replied with a repetition of the order, beginning:

"We understand that, etc."

In time, for the sake of brevity, arbitrary signals were substituted for these phrases. The number 31 came to mean the former and 13 the latter. Later it was seen that misunderstandings would be averted by employing the same set of words for any given regular order, such as a stop, slow, or the like. This obviated the necessity of sending back to the dispatcher the operator's construction of the order.

To reduce the element of danger to a minimum, the double order system was invented. This consists of giving the same order to all trains concerned as at nearly the same moment as possible. The duplicate order system is now in general use.

In its employment the orders given above would take the following form:

"Trains No. 4 and 5 will meet at Charlestown."

Good Advice for Sentry.

General Sheridan was once halted by G. M. Woodward of Wisconsin when the latter was a "high private" in the army of the Potomac and on picket duty. A man on horseback came along, and he greeted him with the proper salutation: "Who goes there?" "A friend," was the reply. "Advance, friend, and give the countersign!" said the young private. "I am General Sheridan," said the horseman. Woodward gave him to understand that he didn't care if he was Gen. Sheridan; that he wanted the countersign, and he brought his bayonet into close proximity to the general's person and demanded the proper answer. Sheridan smiled, gave it to him, and, as he rode away, turned to remark: "Young man, there's a regiment of infantry coming just behind me. Don't molest 'em."

Need for Automatic Stops.

The need of automatic stops for railway trains is emphasized by the report that 171 persons lost their lives and 931 were injured last year in accidents caused by engineers running past danger signals. Such automatic stops are said to be perfectly practicable, and to be in successful use on some electric systems.

Australia has 16,000 miles of railroad.

STEER REVERSES "QUO VADIS"

Animal in Texas Backed With Locomotive and Sent Monster to Earth.

That story about Ursus twisting the head off of an Aurochs bull was exploded in Communipaw the other day, when a big Texas steer, not nearly so strong as the animal which was starred in "Quo Vadis" bluffed a switch engine to a standstill and then backed it off the rails, the New York Herald states. The engine won only one round, and when the knockout had been administered the steer leaped into the corral from which he had escaped and calmly submitted to be lassoed and led away to the death chamber.

The steer was one of many which arrived at the Schwarzschild & Sulzberger plant in Communipaw, from Texas. He was big and black and did not like the surroundings, so he leaped lightly over the fence and found himself on the rails of the Central railroad of New Jersey confronting Tony Arella.

Arella is a switchman, and at the moment was waving a large red flag. Everybody knows what bulls think of red flags and Tony lost no time in getting on the other side of an approaching switch engine just as the steer, with lowered head, struck the front driving wheel.

The engine stopped and the steer immediately locked his horns firmly in the spokes of the wheel. Seeing his chance the engine driver opened the throttle, but instead of whirling about in the air the animal made one circle and landed flat on his feet, like an anvil in the sand, with his horns still locked.

Then with a snort which made the puffing of the engine sound like the E strings of a Jewsharp he gave a mighty push and lifted the trucks of the engine off the rails. This done, he raised his head, winked at the engine driver and leaped back into the pen. It took more than half an hour to get the heavy engine back on to the rails and by that time the steer had been quietly loaded on to a barge and was on his way to the abattoir.

Moving Freight Car On Fire.

A remarkable fire broke out on a Scotch express while traveling from Hellfield to Manchester the other day, the outbreak being due, it is stated, to a spark from the engine. The express was passing through the Brownhill cutting, situated between Wiltshire and Blackburn, when it was discovered that the fish wagon in the center of the train was alight. An alarm was raised, the train pulled up, and the officials were soon able to subdue the fire. Large quantities of kippers and other fish, in a partially cooked state, were thrown out on the embankment, and attracted the attention of the public, who secured the better portion and conveyed it home. The fish wagon was quickly uncoupled and shunted on to a siding, and the train resumed its journey after a delay of about a couple of hours.—London Mail.

Dyeing.

The practice of dyeing is so ancient that it would be folly to attempt to say where or when it originated. The place or period of its genesis no one can tell, or even guess. As far back as history or tradition can take us we find the dyeing vat. Phoenicia was famous for its rich dyes, as was Egypt also. Modern chemistry does not seem to add much to the efficacy of the art. The colors of the most ancient times of which we have any knowledge were as "fast" as any that can be made to-day. In fact, it is held by some authorities that the men of four or five thousand years ago possessed secrets about dyeing that would be greatly appreciated by us if we could get hold of them.

Longer Schedule for Fast Trains.

While it is true that patrons of the American railroads like to "annihilate distance" by traveling at a high rate of speed and share the pride of directors in Eighteen Hour Fliers and Twentieth Century Limiteds, the proposal to make the schedules of such fast expresses longer will be generally applauded. Speed has a fascination for the traveling public, which is always impatient of delays and misadventures, holding railroads responsible for them, but when safety seems to be sacrificed for speed there is no doubt how the traveling public feels about the matter.—New York Sun.

Germany's New Railroad.

Germany has just completed its longest colonial railway, that from Dar-es-Salaam to Tobora in East Africa. The completed line is slightly more than 500 miles long, and is to be extended to the shore of Lake Tanganyika. By steamer the line will here connect with a Belgian railroad to the navigable Congo and by steamboat and railway a real transcontinental line of communication will be established across equatorial Africa. Ultimately the Germans plan to connect the Congo with the Gulf of Guinea by another railway they are constructing in the Kamerun.—New York Sun.

Automatically Stops Train.

To prevent an accident to a railroad train should the engineer be injured and unable to stop it, an inventor has mounted an electric button on the throttle lever, which automatically shuts off steam and applies brakes should the engineer's thumb be removed from it.

The KITCHEN CUPBOARD

CRAB APPLES.

THERE are various ways of putting up crab apples, which are delicious. Owing to its tartness this is an ideal fruit for making jelly.

Crab Apple Jelly.—Take a peck of crab apples, wash and trim, then halve each apple and take out the seeds and any wormy part. Place in a preserving kettle, cover with cold water and put on the fire. Let it boil until soft. Then take off the fire, cool and rub it through a wire sieve. Then to three cupsful of the pulp add a cupful of granulated sugar and set on the fire again. Let it boil for twenty minutes, then put into air tight jars for winter use.

Spicy Fruits.

Canned Crab Apples.—To six pounds of crab apples use a sirup made with one pint of water and three pounds of sugar. When the sirup boils drop in the apples and when tender put the apples into jars and fill up with the sirup. It is better not to peel the apples, but merely remove the cores.

Spiced Crab Apple Jelly.—Take a peck of crab apples, take off the stems, halve and put on to cook in a liquid composed of one-half water and one-half vinegar. Cook until the apples are all soft. Then strain and measure the juice. Tie two tablespoonfuls of broken cinnamon, two tablespoonfuls of whole allspice, one tablespoonful of whole clove in two muslin bags and put into the juice. Cook and when the spice tastes right take the bags out. Cook the juice until when tried with one tablespoonful of juice and same of sugar it jellies. Have the same quantity of sugar as you have of juice in a bowl. When right pour the juice into the sugar. When the sugar is dissolved it will thicken. Pour it into glasses.

To Suit All Tastes.

Flavored Crab Apple Jelly.—Wash and stem the crab apples, but do not pare or core the fruit. Cut up the apples, cover with cold water and cook slowly until soft. Then put into a jelly bag and let it drip all night. In the morning measure and to every pint of liquid add the usual pound of sugar and have it heating in the oven while the juice is scalding. Add to the juice after it has cooled twenty minutes, stir until dissolved. Take out the spoon, cook five minutes longer, skim and turn at once into heated glasses. You may give the jelly variety of flavor by adding lemon, pineapple or rose geranium. The rose geranium flavor is obtained by laying a leaf of the plant in the bottom of the glass. For lemon or pineapple flavor allow two tablespoonfuls of the juice to a quart of the apple juice.

MORAL USURY.

If you lend money and collect more
than the legal rate of interest you
are guilty of practicing usury. If dis-
covered, you must suffer the penalty.

Well—
Do you know there is such a thing
as moral usury?

When you collect from those about
you more of service, or attention, or
sympathy, or assistance than you are
properly entitled to you are guilty of
practicing moral usury.

To illustrate:

You are a husband and you require
of your wife more than the marriage
compact provides. You demand of her
more of self denial, or patience, or for-
giveness, or affection, than you are
willing to extend to her. Or you are
a wife and you ask of your husband
more of labor, of anxiety, of economy
than you are willing to give.

You are a usurer!

Or you are a son, or daughter, and
you exact more from your parents
than you should—of your father's
money or assistance, your mother's
care or kindness.

You are usurious.

Or you ask of your friends or ac-
quaintances more time and sympathy
than you are willing to extend to
them. You expect more than is your
due and complain if they do not freely
give.

That is moral usury.

Your friend, for instance, without
intending to do so, offends you. He
shows by his manner that he is sorry
he hurt you. You refuse to meet him
half way, requiring a formal apology
and cherish your grievance.

Rank usury!

Or you refuse to exercise charity to
your friend who has his shortcomings
Or you require of him more of self
denial than you would suffer for him.

Usurer!

Now the law provides severe penal-
ties for him who is guilty of legal
usury. Should there not also be penal-
ties for the practice of moral usury?

There are!

They are not written in law books,

unlike the written laws of men, bound
in sheep or buckram, these laws are
always enforced!

IMMEDIATE EFFECT OF GREAT KIDNEY REMEDY IS SOON REALIZED.

According to my experience I do
not consider there is anything to
equal Dr. Kilmer's Swamp-Root for
kidney affection. Twice it relieved
me when I was completely helpless.

The last time I was traveling in
Texas, when my kidneys became af-
fected, and for ten days I suffered
excruciating pain, accompanied with
severe chills. Several years previous,
having been relieved of a similar at-
tack, I naturally sought relief as be-
fore, from Swamp-Root.

After using four of the large size
bottles, I was completely restored and
went on my way rejoicing and prais-
ing Dr. Kilmer's Swamp-Root. This
was three years ago, and I have had
no indication of the return of the
affliction.

Yours very truly,

J. C. SMITH, Jr.,

Prove What Swamp-Root Will Do For
You.

Send to Dr. Kilmer & Co., Bingham-
ton, N. Y., for a sample bottle. It will
convince anyone. You will also receive
a booklet of valuable information, tell-
ing all about the kidneys and bladder.

Practical Fashions

LADY'S WAIST.

This charming waist can be made
to form part of a delightful cos-
tume by combining it with a becom-
ing empire skirt. The model is quite
easy to develop. It closes at the
left side of the front and can be made
with long or short sleeves. The pretty
collar is a fetchy feature. The design
is dainty carried out in white silk
with all-over yoke and collar and ap-
plicable trimming.

The pattern (5901) is cut in sizes
32 to 42 inches bust measure. Me-
dium size will require 2 1/2 yards of 36
inch material, 6 yards of 18-inch all-
over and 2 yards of applique.

To procure this pattern, send 10 cents to
"Pattern Department" of this paper. Write
name and address plainly, and be sure to give
size, and number of pattern.

BEAUTIFUL HAIR AT SMALL COST.

A Simple Remedy Cures Dandruff and
Stops Falling Hair.

What a pity it is to see so many
people with thin, wispy hair, faded or
streaked with gray, and realize that
most of these people might have soft,
glossy, abundant hair of beautiful
color and lustre if they would but use
the proper treatment. There is no
necessity for gray hair under sixty-
five years of age, and there is no ex-
cuse for anyone, young or old, having
thin, straggling hair, either full of
dandruff or heavy and rank smelling
with excessive oil.

You can bring back the natural col-
or of your hair in a few days and fore-
ever rid yourself of any dandruff and
loose hairs, and make your hair grow
strong and beautiful by using Wy-
eth's Sage and Sulphur Hair Remedy.
For generations common garden Sage
has been used for restoring and pre-
serving the color of the hair; and Sul-
phur is recognized by Scalp Special-
ists as being excellent for treatment
of hair and scalp troubles.

If you are troubled with dandruff
or itching scalp, or if your hair is
losing its color or coming out, get a
fifty cent bottle of Wyeth's Sage and
Sulphur from your druggist, and no-
tice the improvement in the appear-
ance of your hair after a few days'
treatment. Agents Andrews Drug

WHAT S.S.S. STANDS FOR

The familiar letters, S. S. S., stand for Siwt's Sure Specific, a name
honestly and fairly earned by a great blood remedy. It is worthy of its
title because it really CURES every ailment resulting from impure blood.
The majority of physical afflictions are caused by bad blood, because a weak,
polluted circulation deprives the system of its necessary strength and dis-
ease-resisting powers. S. S. S. cures every disorder which comes from
weak or diseased blood, it tones up and regulates every portion of the system, and creates an abun-
dant supply of nourishing properties which fill the circulation and bring health to the body. S. S. S.
is made entirely of healing, cleansing roots, herbs and barks, which are also possessed of great tonic
properties. It does not contain a particle of mineral or other harmful drug, and is therefore the purest and safest blood medicine for young or old.
S. S. S. cures Rheumatism, Catarrh, Sores and Ulcers, Skin Diseases, Scrofula, Malaria and all other
troubles of a deranged circulation. Write for free book on the blood and
any medical advice. No charge for either.

EXTENDING THE LINE OF DEFENSE

Defendants In Dynamite Case Change Tactics.

MUST MEET THE PROSECUTION

The Continued Assertion That the Government Had No Case and That Evidence of Good Character in Behalf of Defendants Would Be All That Would Be Necessary to Meet the Charges, Has Been Modified.

Indianapolis, Sept. 30.—The dynamiting cases will be called for trial in the federal court tomorrow morning, and most of the fifty-one defendants are now in the city and telegrams and letters from the others say they will arrive some time tonight or early in the morning. Those who are here have been in conference with their attorneys practically all day, and the headquarters of the iron workers in the Central Life building have been more animated than at any time since the night of the McNamaras' arrest.

The most important occurrence during the conferences was the backing down from the assertion that the government has no case and that the indicted iron workers will not introduce any evidence except as to good character. Frank M. Ryan, Herbert S. Hockin, and others were made to see the danger in relying upon that kind of testimony exclusively and were told in unmistakable language that the government will offer in evidence of the conspiracy, must be explained away to the satisfaction of the court and jury or there would be certain to be convictions, and if any were found guilty, the probability is that all of those who are mentioned in the letters would come within the same verdict.

It was admitted that the letters in the government's possession do not look well for the defense on their face, and that it was incumbent on them to show that the references to dynamiting, as interpreted by the government, were not necessarily illegal or criminal transactions.

WETS SCORE A POINT

Latest Development in Marion Saloon Controversy.

Anderson, Ind., Sept. 30.—Through a finding by Judge Bagot in the circuit court here, the "wet" element at Marion scored a point toward the opening of the saloons in that city. After the matter had been apparently settled to the satisfaction of the "drys" the liberal element made a motion to reinstate the case which had been dismissed by Judge Paulus in the Grant circuit court.

The "drys" took a change of venue to the Madison circuit court, and it was decided by Judge Bagot that the motion for a review of the case borders so closely a motion for a new trial that any court outside of the court in which the case was originally filed has no jurisdiction. This means that the case must be reviewed in the Grant circuit court.

In the meantime twenty-one saloons at Marion will continue closed.

MURDER SQUAD

Has Been Picked to Kill Ten, So Anonymous Letter Says.

South Bend, Ind., Sept. 30.—The Rev. Herman J. Alerding, bishop of the Fort Wayne diocese, is among the number who are threatened with death in an anonymous letter received by a committee of St. Bavo's Catholic church at Mishawaka. This church has trouble similar to that at St. Stephen's church in this city a year ago. The letter, which has been forwarded to the bishop, names the Fort Wayne bishop and nine others as those who must die as a result of the church controversy. "Your days are numbered," the letter says, "and in just a little while it will be over with all of you. We intend to get you unexpectedly. We will disappear in an automobile. There are five men picked out to do the murdering and they will do their work well."

Perished in Burning Home.

Richmond, Ind., Sept. 30.—Weak from sickness and blinded by smoke, Mrs. Seth Lucas, sixty-three years old, was unable to leave her home on a farm near Greens Fork, this county, and burned to death in a fire which destroyed the building. Her elderly husband escaped from the building, thinking his wife was following him. When he found she was in the building he attempted to rescue her, but was driven back by the flames.

Preferred Death to Parting.

Shelbyville, Ind., Sept. 30.—Charles Williams, thirty-eight years old, of Rugby, committed suicide here in front of the home of his brother-in-law, W. C. Rominger. He drank carboic acid because his wife, who had left him a year ago, refused to see him or hold any conversation with him.

Little Girl Drowned.

Indianapolis, Sept. 30.—Minnie Hange, six years old, daughter of George Hange, living southeast of the city, fell into a ditch that had been dammed for a swimming hole and was drowned.

LOOKING OUT FOR HONDURAN TROUBLE

Gulf Ports Being Watched for "Hilustraters."

Mobile, Ala., Sept. 30.—Activity on the part of the federal government has been caused by a report that a filibustering expedition is being organized at this or some other gulf port for Guatemala or Honduras. It is said that there are more than two dozen secret service agents here and along the Mississippi coast seeking the identity of the promoters. The statement was made that two men known as "soldiers of fortune," and who have pulled off more than one successful expedition have been in Mobile. It is believed that a move is on foot to start another revolution in Honduras. Recently revenue officers searched a schooner on the Mississippi coast. Nothing was found. This vessel now lies off Mobile, according to report, awaiting opportunity to take on arms and ammunition. A revenue cutter was said to be lying off Mobile to intercept any suspicious looking vessel.

GOING BACK

Next Hygiene Congress Will Be Held in Europe.

Washington, Sept. 30.—The Fifteenth International Congress on Hygiene and Demography, the first ever held outside of Europe during the sixty years of the organization's existence, came to a close here after a week devoted to discussion by prominent scientists from all parts of the world of questions relating to every possible phase of public health policy and practice and to the value and methods of gathering vital statistics. For its next session the congress will return to Europe. Although no definite announcement was made by the permanent committee which selects the place of meeting, it was said unofficially that Moscow, Russia, would get it.

Charged With Awful Crime.

Wellington, Kan., Sept. 30.—Otto McKnelly, aged twenty-one, was arrested here charged with the murder of his father, Theodore McKnelly; his mother, and sister, whose bodies were found in a tent on the outskirts of town.

Negro Brothers Hanged.

Eddyville, Ky., Sept. 30.—Charles and James Smith, young negro brothers, were put to death in the electric chair at the state prison here for the murder of an aged negro at Maysville, Ky.
